

This is a pattern for masking the fin when you wish to build an F-16C Block 30 of the 'Knights of the North' squadron. Print it on a white sticker paper.

1. Spray all the fin with sand FS 33531.
2. Cut the marked pattern.
3. Remove most of the adhesive by attaching the label to your pants few times.
4. Place it on the fin to cover the sand.
5. Spray the Brown FS 30219 around it.
6. Peel the masking carefully and throw away.
